

ATLA Religion

Religion and Theology Online Articles

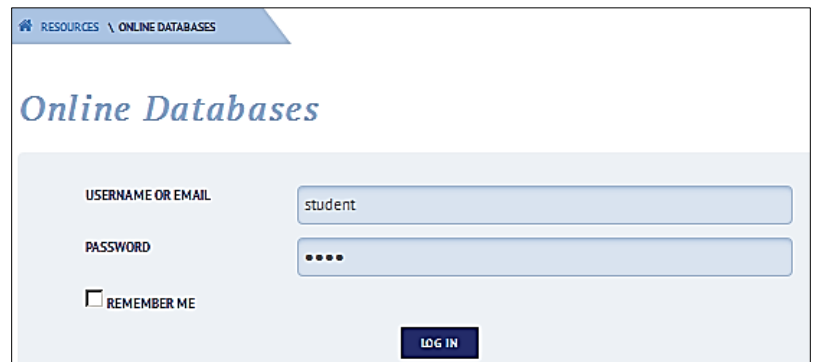

This handout is intended to help you explore this database from home. Please see the librarians for further assistance.

1. Web address:

<http://www.nbts.edu/sage-library/resources/>

2. Click the link for **Online Databases**

3. User ID: **student** Password: **nbts**

4. Click on the link that says **EBSCOHost Research Databases**

5. User ID: **nbts** Password: **library**

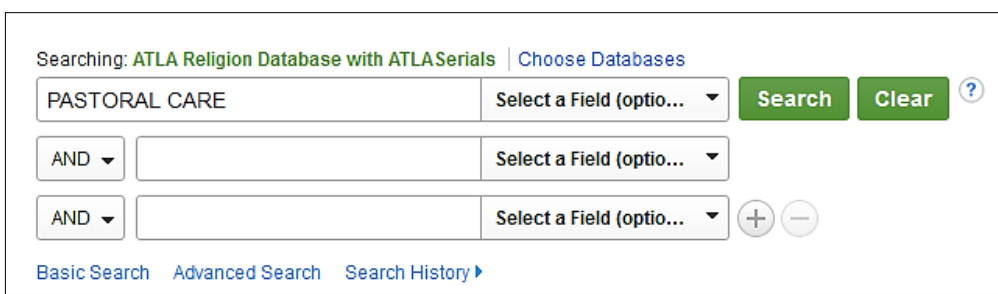

6. Click on the link for **EBSCOHost Web** and then click the link for **ATLA Religion Database with ATLA Serials**

7. On the search screen, you can enter a keyword or phrase and click **Search**.

In the examples below, I have entered **pastoral care**.

Please note: all caps were used for easier reading. The database is not case sensitive.

Questions? Contact the library: sage@nbts.edu or (732) 247-5243

8. This is the first page of results from the **pastoral care** keyword search. 7,811 results were returned. There are a number of ways to limit the number of results.

Limit the results by:

- selecting only articles with full-text available
- selecting only articles published in scholarly journals
- setting a range of publication dates

2000 Publication Date 2013

9. Professors often expect use of scholarly articles only. To limit results to scholarly articles, click on **Scholarly (Peer-Reviewed) Journals** check box on the left sidebar.

10. To limit the results further, click on the box for **Full Text** and use the slider bar to select the inclusive

Publication Dates.

In the example, the search was limited to those articles published between the years 2000 and 2013.

ults Search Results: 1 - 50 of 1,395

The number of results has decreased to 1,395.

11. Adding more search terms is another way of limiting results. In this example, articles were searched whose descriptions (title, abstract, subject terms, author's names, journal title) include the words **pastoral care AND ministry**. 43 articles were returned.
