TITLE & DESCRIPTION
<p>TEACH US TO PRAY</p> <p>To learn to love to pray, as oppose to loving the idea of praying, you must understand that prayer is not a special gift, not even a responsibility; it is a practical privilege. A privilege because it is an invitation to speak with God-the Creator-of the universe. Practical because nothing is more useful for giving our everyday lives weight and direction.</p> <p>This course will teach you different ways you can pray that will allow you to daily commune with God. This will help you understand the difference between the tendency to pray and the practice of prayer. It will help understand that prayer is something we must do to truly have personal communication with God. It will begin to help you develop a prayer life (or help you develop a richer prayer life) that will connect you more fully with the presence of God in your everyday activities.</p>
